Bear Valley.
FEAR FOUR MEN
ARE DROWNED.Left in a Motorboat Early
in the Day.
SEARCHING Party Finds Coat
and Oars Floating.Gale Raging on Lake
and Water Freezing.WEDNEY WIRE—EXCLUSIVE DISPATCH.—
BEAR VALLEY, Nov. 7.—Four men are believed to have lost their lives drowning today in the lake. They were engaged in work upon a dam being constructed near here, left early in the morning in a steel motor craft.

At this evening, a mile away from the point where they departed, a man and a mackintosh coat of one of the men were found on the shore, having been washed up by the waves. A severe windstorm has been blowing all day and it is the opinion of the men on the ground that they must have been capsized and the men necessarily sank, being unable to swim to shore.

A police force is now sent to confirm or prove the truth of the belief that the lives are lost. The names of the men are Beyer, W. E. Stringer, John and William Weidney, all of whom were found at the damming party found a hat also.

Water in the lake has been rising and it is believed that they did not stay out all night without returning early, if they were.

which is not likely. The damming party will work all night in the hope of finding the missing.

The objective point of the was Fisherman's Landing.

Mix-up.

**THE CITY
AND ENVIRONS.**
EVENTS BRIEFLY TOLD

On Thornew.
Rev. E. Stanwell Hodges will give an evening lecture on "Thornew and the Gospel of the Out-of-doors" at the First Unitarian Church tomorrow evening.

To Have Bazaar.

A bazaar and dinner for the benefit of the Magnolia-avenue Christian Church will be given at the church building Friday by the Ladies Aid Society.

Manfield Resigns.

W. R. Blake arrived here yesterday that J. H. Manfield, assistant general passenger agent of the Salt Lake route, with headquarters at Salt Lake City, had resigned to accept the position of manager of the new stock yards there. Mr. Manfield has a wide local acquaintance. The name of his successor has not been announced.

To Address Students.

Students at the University of Southern California will this morning hear a lecture on "The War" by Rev. Herbert E. Welch, L.L.D., a bishop of the Methodist Episcopal church. Bishop Welch, who will leave in a few days for his charge at Seoul, Korea, will be the guest of the faculty at luncheon at which the university trustees will be present.

To Find Missing Soldier.

In the interests of the estate of W. R. Blake efforts are being made to locate Sergt. Richard Blake, No. #1210 of the 10th Cavalry and Staff, Cavalry Company, Royal Engineers, R.E.E., France, by L. N. Turrentine, attorney of Encino. Blake is a Scotch soldier, who was last heard of in No. 10's L.A. Hospital, and it may have been taken captive by the Germans. Any information regarding his fate will be appreciated by the attorney.

For Civil Service Tests.

The Los Angeles county Civil Service Commission announces a series of examinations for civil service, civil engineering draftsmen, the 24th inst., at 8:30 a.m.; junior structural bridge draftsmen, the 17th inst., 8:30 a.m., and senior structural draftsmen, the 23rd inst., 8:30 a.m. All these examinations will be held at room No. 1907, Hall of Records. Applicants must be 21 years old and residents of Los Angeles county.

School Journalists to Meet.

The Southern California Press Association, composed of the staffs of every high school in Southern California, will meet at Hollywood High school Friday morning at 10 o'clock in the High school auditorium. The editors and business managers of the different publications of the schools will be present to base the path of a school paper. A noon lunch will be served and the sessions continued in the afternoon. The association is the largest organization in its field in California. It meets every school term.

For Racial Advancement.

The annual meeting and dinner of the National Association for the Advancement of Colored People, Los Angeles branch, will be held at the Sojourner Truth Home, No. 1119 East Adams street, tonight at 8 o'clock. Included in the organization are members of all races. Mayor Woodman and Superintendent of Schools Shibley will attend. The local officials are Dr. Charles E. Lockett, president; Dr. J. A. Somerville, first vice-president; Rev. E. Blight, second vice-president; E. Burton Ceruti, secretary; Mrs. Beatrice S. Thompson, assistant secretary; Mrs. Morgan E. Robinson, treasurer.

Facts.

DRY STATES WORSE.

Comparisons Show Average Savings
More Than Double in the Wet
Territories and Twice as
Many Divorces Where
Prohibition Rules.

Comparisons of wet and dry States show some startling facts. For instance: The average savings of each depositor in the savings banks of the United States is \$19.97. In eight prohibition States—Kans., Maine, West Virginia, North Carolina, Georgia, Mississippi, Tennessee and North Dakota—the average is \$245.82. In eight wet States—New Hampshire, Rhode Island, New York, California, Montana, New Hampshire and Pennsylvania—the average is \$20.82, more than double that in dry States.

Divorces per 100,000 in wet and dry States show more than twice as many in the wet States. In Georgia, Kansas, Maine, Mississippi, North Carolina, North Dakota, Oklahoma, Tennessee and West Virginia the average per 100,000 is 222; while in Connecticut, Delaware, Louisiana, Maryland, Minnesota, New Jersey,

**Home Celebration
of Wonder Interest**

The arrival of a baby in the household completely changes the entire aspect of the future. But in the meantime, during the anxious period of expectation, there is a splendid remedy known as "Mother's Friend" that does wonders. It does not only relieve the pains of muscle expansion, muscle tension and sore nerves, extends its influence to the internal organs and removes to a large extent the tendency to worry and apprehension. It is a natural treatment, safe for all, no drug effect whatever, and for this reason has a most beneficial influence upon those functions directly connected with motherhood. In a very interesting book the author is fully informed and a copy will be mailed free to all expectant mothers by Bradford Regulars Co., 400 Lamar Bld., Atlanta, Ga. Get a copy of "Mother's Friend" today of any druggist. Use as directed and remember that you will then know why mothers for nearly half a century have recommended this wonderful aid to motherhood. Their little girls are more of cheer, that breathe comfort in every word.

HAY BARN BURNS.
[LOCAL CORRESPONDENCE]
PUENTE, Nov. 7.—A large hay and machinery barn belonging to the Handorf Dairy, near Helman Station, on the Salt Lake, was totally consumed by fire which began about 8:30 Sunday evening. Three hundred tons of hay were in the barn and some machinery. The loss is \$10,000 and origin unknown.

WHAT IS YOUR SOLUTION OF THE SANTA MONICA "MURDER PUZZLE"?

THE Benton L. Barrett murder mystery, so called, is now three weeks old. Tomorrow has been set for the preliminary hearing of the case, at which time certain facts will be brought before the Justice of the peace at Santa Monica. On this testimony the District Attorney's office will ask that Barrett be held to answer in the Superior Court to a charge of murder. At the same time the defense will ask that the elderly priest be discharged.

The case is as much of a mystery today as it was the first time it came to the notice of the officers. What is the solution?

There is no solution given here, also an outline of the main theories of the prosecution and the defense.

The Times puts the question of solution up to the public. Write to the *Santa Monica Mystery Editor* and give your opinion of what occurred at the little ranch at Santa Monica. Maybe you can hit on a theory that will enable the police to arrive at a solution of the puzzle. All let

What the stable told.

Barrett confessed.

There will be treated as confidential but such theories as are tenable will be used by the officers and as now.

HERE ARE THE FACTS.

Saturday afternoon, October 21, Benton L. Barrett, a ranchman, 65 years of age, walked into the office of Attorney Lewis D. Collins of this city and calmly announced he had killed his wife and stepson, Raymond Wright, 17 years old. He stated that on the previous Wednesday, October 19, his wife, Mrs. Irene Barrett and her son attempted to creep upon him in the yard at the rear of their home; that Mrs. Barrett was armed with a butcher knife and the son with an

SACKS STILL DAMP.

Two sacks that had been soaked in blood came to light and a spot in one of the stable stalls and other

(Continued on Sixth Page.)

CLOSING OUT

We are closing out the entire stock of the Frank B. Long Co. in Los Angeles. We purchased these goods outright, for cash, at a price that would startle the purchasing department of the most conservative piano dealer.

They found human bones.

He said: "I had started a fire to burn up a pile of rubbish—branches from the walnut trees that had been broken or cut off pieces of board."

SAYS HE KILLED.

"When I turned and saw my wife coming at me with the knife I threw her body into the fire. Then I laid her body alongside of her and piled brush and lumber over them. I kept up the fire from 9 o'clock until 2 in the afternoon, when the bodies appeared to be carbonized. I did not notice the bodies; I did not dismember them. No one helped me. This was merely a case of my life against theirs."

Attorney Collins, who certified that he would have to tell his client that he was under obligation to do so and willingly went into the courthouse, where he remained silent. The District Attorney, Woolwine, with a corps of detectives went to the Barrett home in Santa Monica.

HUMAN BONES FOUND.

They found the remains of the fire as described and from the ashes picked human bones.

Barrett's story of the killing was questioned almost from the start.

He said he had placed mother and son side by side and both heads pointing in the same direction. The officers found a gold tooth welded to

Ruin Is Wrought in Path of Great Improvement.

Where twelve-story building will rise.

Structures at Third street and Broadway, long familiar to Angelenos, are being rapidly wrecked in clearing a site for a large theater, studio and office edifice, that will be distinguished by rich ornamental detail, and which the projectors say will be rushed to completion.

On North Broadway.

LANDMARKS GO TO MAKE WAY FOR SKYSCRAPER.

OLD-TIME landmarks of the northern shopping district are being wiped out of existence as fast as the Whiting Wrecking Company, with a small army of laborers, can work in the rapid preparations for the construction of the magnificent twelve-story theater, studio and office building projected by the Stability Building Company, to be erected at the southwest corner of Third street and Broadway. Three buildings, a two-story brick structure having a frontage of 120 feet on Broadway, a two-story building just back of it on Third street and a three-story hotel adjoining the latter structure are coming down to make way for Broadway's newest skyscraper.

The wrecking concern in charge of the work is operating under a subcontract with the C. J. Kubach Company, which several days ago was given the contract for clearing and excavating the site and building the foundations of the new structure. The work is to be completed in record time. Albert C. Martin, the architect, has already let the contract for the steel work to the Baker Iron Works and is also perfecting the plan for the rich ornamental details that are to distinguish the splendid new Broadway improvement.

Campaign.

TO TEACH FOREIGNERS.

Sixteen City Schools will Open for Evening Classes Where Varied Essential Subjects will be Taught for the Benefit of Many People.

As the first step in a big educational campaign for the benefit of those who come to the city from foreign countries.

Eight lands and are lacking in a knowledge of American customs and laws, the Board of Education will open sixteen of the city schools on the 20th inst., wherein evening classes will be held for the purpose of instructing these peoples.

The registrations will open the 13th inst. at the following schools: Avenue 21, Ann, Amella, Utah, Bridge, East First, Fourteenth, Castelar, Alpine and Olive-street schools, the Grand avenue, Los Angeles High, Belvedere, San Pedro, Griffith, school and the Lincoln Avenue Intermediate school.

Evening classes will be for adults especially and younger people capable of understanding the subjects will be welcome.

Courses of study will embrace the teaching of colloquial English, knowledge of local industries, opportunities and facilities, such as dispensaries, hospitals, libraries and other public organizations, and special instruction will be given in city government, which is necessary for the advancement of the students. The classes will be held from 7 till 9 o'clock every evening.

The State Commission of Immigration and Housing, which was appealed to by Dr. Shieh, has turned over its local office to the work of getting the news before the foreign people under the direction of Miss Ethel Richardson.

All's Well.
HARMONY AGAIN IN MUSICIAN'S LIFE.

FREED FROM JAIL AND UNITED WITH WIFE AGAIN.

Separation, Divorce Suit, Incarceration and Loss of Good Job Precludes to Freedom, Dismissal of Court Action and Restoration of His Home.

All's well that ends well, but the happy ending in the case of W. R. d'Alfonso, musician and son of a wealthy South American family, was not reached until he had passed through many tribulations.

First of all, he says, his wife deserted him not long after their arrival here. He sued for divorce, and Judge Crawford awarded him the custody of the two children. He placed them in the Shaw home, agreeing to pay \$25 a month for their support.

Next he was arrested because he had an altercation with a Mrs. Pleasant, whom he found in his wife at the Shaw home during a visit he made to his children. Judge Crawford sentenced him to 180 days in the East Side Jail. This put the d'Alfonso on the wrong side of the San Francisco Orchestra, for he had his ticket to that city when he went to see his children.

Gasner Williams and Robert H. St. John were interested in Mr. d'Alfonso's case, and a mighty hard one it was. But last Friday Mrs. d'Alfonso and Mrs. Pleasant went to Judge Crawford and succeeded in getting the release of Mr. d'Alfonso from jail.

Monday Mr. d'Alfonso and his wife reunited, went into Judge Wood's court and asked to have the d'Alfonso's marriage restored. They told the court they are living happily together. The court granted their request.

NO RESPECT FOR AUTHORITY.

M. Samuel Gompers doesn't believe we should teach young men to respect "constituted authority." In a telegram to Gen. S. B. M. Young, president of the Association for National Service, Gompers says that he believes in preparedness, but "the right of revolution must be retained," and he adds: "I do not think that we would be promoting the best interests of our republic or the best development of our nation if we taught our youth merely to respect constituted authority. Such a policy would result in subservience and facile obedience and would be subservient to initiative and independence." No, Gompers can't believe in "respect for constituted authority," for that would do away with the lawlessness of his union, would end the boycotts and the rioting of strikers.

SOME DAY.

The German merchant submarine, Deutschland, is moored near the New London bank of the Thames River. This is not so ironical as it is prophetic. Some day the Deutschland will moor near London in the mouth of the Thames on the other side of the Atlantic—some day when the war is over—and her visit will be accepted as a matter of course. And some day British ships will again moor in German harbors. German and British Embassies will be reopened in London and Berlin, and the bitter years of 1914-1917 will be forgotten. Nay, some day Germans and Britons will sit together at the international council for the enforcement of international laws: some day they will stand together, shoulder to shoulder, insisting upon the arbitration of a disputed point between other nations. Whereas now both nations are declaring there shall be no peace, some day they will be insisting there shall be no war.

Some day!

S MASH. This is a smashing age. On every side we see and hear bang, crash, smash! The girl in the kitchen slams the dishes in the sink and handles fly and cracks multiply. In the restaurant and cafes endless trays of food and dishes go down in the rush to become useless fragments. In stores hurrying clerks drop armfuls of boxes or bolts. The schoolgirl, running up the steps, stumbles, falls and scatters books and papers far and wide—if she doesn't smash a limb.

On the street the pedestrian who is hurrying to catch a car or a bargain cannot wait the crossing signals and dodges between vehicles and cars until caught and smashed somewhere—perhaps for good. Joy riders and truck drivers, alike bitten by the speed mania, take chances, and smashed vehicles and human bodies are the result. "Behind time" is the boggle man of all transportation people, and the effort to make up "lost" time ends in loss and destruction. Hours and lives are sacrificed to save moments.

Shall we never learn that all time is forever lost and at the same time forever present? That time, after all, has nothing to do with the clock and the time-table? Rush and hurry and worry are the only real destroyers of time, and these neither add to nor take from time—they only knock out people.

The force and energy that are wasted in rapid and useless motions and by overstrained and misdirected muscles and nerves would make over the universe if properly used. The real work of the world is always done by quiet, self-controlled, unburdening men and women who possess the real secret of existence—intelligent self-direction, and thus never need to "hurry" and never work under nervous tension.

OUR ONLY FRIEND.

Judge Gary, lawyer and ironmaster, after a few months spent in Japan, returns as an authority on affairs in the Orient and advocates the policy of the United States aiding and abetting Japan in her exploitation of China. Japan, he thinks, should have a free hand and this country should furnish the capital.

Japan plays her cards well. She has won the amiable Judge over to her way of thinking. But what of China? China, about the only country upon whose friendship the United States can count. China, which looks to us as the great and good civilized nation which stands for fair play, which believes in the sovereign rights of nations to manage their own affairs. China, who remembers us as the nation willing to forego an oppressive war indemnity. China, the one nation in the world which considers us honorable and generous and places an abiding faith in us. The rest of the world has chosen to regard us as profit-seeking dollar searchers, prepared to bathe on the woes of others. China alone believes in us. Yet Judge Gary, after a personally-conducted tour in Japan, fawned upon Japanese publicists, would have us turn on this our friend. He would have us provide the wherewithal for Japan to invade the sovereignty, to humble and to exploit this our one friend.

If we have been sincere in our friend-

ship for China, if we would be sincere to our own ideals, our only logical course is to aid China to aid herself. Our capital may well be applied to the exploitation of China—for the Chinese. There are great enterprises waiting to be developed in China, yes, but given our aid China can develop them herself for herself. Maybe we could get Judge Gary to spend a few months in China, personally conducted by our friends the Chinese, are making another public statement on our international du-

THE ELECTION.

The people of the United States apparently have elected Hughes President and turned the reins of government over to the Republican party. Early returns gave Hughes a tremendous lead, the great States of New York, Illinois, New Jersey and Indiana piling up a handsome column of electoral votes for him. But as the late returns came in from some of the States which had been counted as securely Republican, swing into the doubtful list—California among them. At 1 o'clock this morning, when The Times went to press, the result was uncomfortably close; the doubtful list was formidable.

The Times has a great desire to avoid misinforming its readers and its statements are conservative. The Times believes that Hughes and Fairbanks are elected. The Times believes that California will be found to be Republican by a small majority. The Times believes that prohibition has been defeated in this State. The Times rejoices that the Single Tax amendment has been snowed under. The Times is very happy over the overwhelming defeat of Helms by Woolwine for District Attorney. Some of the returns are distressingly incomplete and it would be folly to draw positive conclusions from them. Let us await the developments of the next twenty-four hours, wait until a larger percentage of the vote of city, State and nation has been heard from. No; we will not crow till we are out of the woods.

DIPLOMATIC MELODRAMA.

For the purpose of home consumption it may be necessary for the British Prime Minister to indulge in flights of sentiment and heroics. But it would simplify the present international complications if, in its relations with America, the British government would put the cards on the table and talk business.

In answer to nearly every protest that goes across the sea from Washington the British Prime Minister or some other shining light of the British government tells Parliament, in tones of anguish, the sad and bitter story of American ingratitude. Tells again the story of Dewey and Admiral Von Dietrichs at Manila Bay and how the British fleet intervened to save the Phillipines for us.

Now we all know this story without being reminded of it. America is quite well aware of the fact that Admiral Chichester intervened in favor of Dewey at a critical moment. But we also know the motive that drove the British admiral to this outburst of sympathetic seal.

Everyone knows that the German government was at that moment negotiating with Spain for the purchase of the Phillipine Islands. The Kaiser's bargain was interrupted by the Spanish-American War.

Had this bargain gone through it would have been an almost fatal setback for the British Empire in the Far East.

England has—and then had—great interests in the Yang Tse Valley in China and other great oriental possessions. These interests are approached by a trade route which is flanked by the Phillipine Islands. German possession of the Phillipines would have been a tragic strategic disaster for British interests. It would have been like handing over the combination of the office safe to a business competitor.

We were in a bad fix in the Philippines on that day when Admiral Von Dietrichs sailed up to Dewey with a chip on his shoulder. It was sweet and dear and awfully lovely of Admiral Chichester to take a hand in it; but it is, to say the least, uncandid in the British government to pretend that Admiral Chichester changed his anchorage to be in the line of German fire just because they loved us.

Nations neither hate nor love. They have interests that occasionally need armed protection. Alliances are made and unmade, not through love, but purely through convenience. England has found it expedient on various occasions to fight us. In 1898 it happened to be expedient for Great Britain to protect our interests in order to protect herself.

At the present time Germany loves us a lot and England is inclined to look upon us with disfavor. At the next turn of the wheel the conditions are quite as likely to be reversed.

Blood is thicker than water; but water is more plentiful. And the British government might be reminded that it was an American commodore who declared that doctrine when the British were in need of rescuing in China.

Heroes are well enough for movie dramas; but diplomacy is a cold-blooded agreement between armed men.

NICARAGUA CANAL.

The newspapers and the people of Panama are in favor of the construction of the Nicaragua Canal and they advance a number of reasons in advocacy of the building of one, which reasons are entitled consideration from the fact that the whole subject of interoceanic canals, their relations to commerce and to military and naval problems, have been a constant theme of study in Panama for many years.

It is urged that in case of a war between the United States and any European or Asiatic power the exposed ends of the canal might fare badly. One of the arguments advanced in favor of the construction of the Panama Canal was that it would contribute greatly to the effectiveness of our naval fleet in that our battleships could pass from ocean to ocean in a few hours. But if the canal should be closed at either end by a hostile fleet, or closed by slides, or otherwise rendered unavailable by the vulnerability of the lock type of canal to the sort of warfare recently developed in Europe, either Colon or Panama might be besieged and it would take months for our ships to come around Cape Horn for the relief of the blockaded port. The land fortifications could keep an enemy in Panama Bay at a distance, but could not prevent a siege. But if an Atlantic fleet could come through a Nicaraguan canal the chance of an effective siege would be reduced to a minimum.

In time of peace the Nicaragua Canal might take from Panama the maritime coastwise traffic between California, Oregon, Washington, Alaska and the Atlantic seaports in the Eastern States, but a Nicara-

A Tidal Wave.

SOME EMOTIONS AND A MORAL.

BY ALMA WHITAKER.

You can get all sorts of emotions at the Little Theater just now. "Wise" Russian drama in eight scenes, affecting everybody differently. Discontented married ladies find it very disconcerting. Contented ones there are a few, though rare—find it merely nasty. Sentimentalists get the shock of their lives.

Fond husbands usually express themselves with "Lot of damned rot!" The other kind find nothing but justification for their peccadilloes. Philandering gentlemen with a weakness for experiment on other people's property restrain themselves from applause when "the other man" impatiently murmur "How incredibly stupid" upon hearing of the suicide of the heroine.

Contingencies were what on earth was the matter with the champagne in the restaurant scene when it created such mournful irresponsiveness.

But there are a few useful conclusions to be drawn from the play. Firstly, ladies in search of "self-expression" and a lover who will love them "as they want to be loved" are doomed to disappointment. Only the wrong man is prepared to love us as we want to be loved. If only the Tertium Quid could have been induced to love her as the fond hubby did, or the hubby as the Tertium Quid did, it might have been all right. But apparently it can't be done. Either way it is a clarion call for a little excitement.

Secondly, being beautiful is a worthless asset if you intend combining it with yearfulness. The husband who thought her beautiful and was prepared to grovel to keep her was rather more aggravating than the lover who thought her beautiful, but preferred to be non-committal. Only the wrong man is prepared to be utterly faithful and devoted. Alarming information this. So he is doomed to be a nuisance, no matter what his relationship and status.

Thirdly, we leave the theater convinced that there is nothing much more objectionable than emotional devotion. The husband's persistent devotion, prepared to overlook any and all little unpleasantnesses and wax sublimely sentimental in the face of the utmost discouragement, is regarded by the yearful heroine as merely tiresome. He doesn't understand. And when the heroine insists upon offering the same sort of devotion to the improper lover he looks thoroughly alarmed and ungrateful. God rot! He understood it too well. It was the yearning heroine who did not understand that time. Which was very absurd of her, because "understanding" was her pet theme.

Gawsworth's "Fugitive" was a similar sort of play. In that, too, the respectable husband was only too willing to forgive and forget—the uncomprehending brute! Erring wives apparently loathe being forgiven. In that, too, the stealthy lover found the other man's wife's devotion a bit too clammy for comfort. Both heroines commit suicide.

Dissatisfied and adventurous wives receive a nasty shock in the funeral scene. While the lady is laid out on a floral bier, the Tertium Quid disputes the cost of the sentimental wreath he has ordered from the florist. He pays up with the utmost reluctance.

With a ship canal giving her access to the markets of the world, the resources of Nicaragua, of which the republic of Panama is practically destitute, would cause both capital and immigrants to flow into that Central American country and her swift development would soon crowd her canal with ships.

A MERAMICIZING OUR FOREIGN POPULATION.

The Board of Education, Superintendent of Schools, State Immigration Commission, Federation of Women's Clubs and most of the social welfare agencies of Los Angeles are back of a movement to enlarge the attendance of our evening schools. It is the purpose to make a campaign, using every means of publicity possible, including a careful canvass of the city, to secure the attendance of foreign-born residents who have not acquired the English language in our schools.

It is estimated that about one-fourth of the population of this city is of foreign birth. A large percentage of these foreigners are not to be classed as illiterates, since they are able to read and write in their own language and, in many instances, are well educated. But, if they are to become American citizens, they need to speak our tongue and to learn our ways. There are also considerable numbers of people who cannot read or write in any language and who need the most elementary training to prepare them for residence in an enlightened community, to say nothing of making them fit subjects to receive citizenship.

The public schools are now recognizing that the education of the children of immigrants is not enough. Our eastern cities and centers of large foreign population are experiencing the results of neglecting the adult foreign-speaking element. The child of non-English-speaking parents who are unable to speak English, for example, is condemned to a life of poverty and ignorance. He is a good listener and is always eager to hear the views of others on important questions.

There is certainly a stern moral in that sort of play for women—avoid beauty at all costs, eschew yearnings, devote your time to strictly non-commercial interests, making tidy and decent for Christmas bazaars, if you must marry her to choose a gentleman incapable of ardent devotion, never fall in love yourself under any circumstances unless you like being a nuisance, and above all, die young.

Another thing we learn at the Little Theater is that audiences, even Little Theater audiences, must grieve in the face of tragedy. They always snickered at the most dismal and harrowing places. Since the acting was good and convincing, this would imply that realistic tragedy, in its absolute absurdity, is really funny. Tragedy is the best joke in the world. It makes our two men at least thought beautiful. A little wifely work might have saved her.

Production of tungsten ores in the United States last year broke all records, being equivalent to 2165 tons of concentrates, worth more than \$2,000,000.

In forty years the sugar per capita of Connecticut, with but one-fourth the population of that State, has an area nearly

NATIONAL EDITORIAL SERVICE. WILL JAPAN FIGHT? (CONTRIBUTED TO THE TIMES)

BY K. K. KAWAKAMI.

Author of "American-Japanese Relations," "Asia at the Door," etc.

HERE is something naive about the efforts of certain writers to utilize the ministerial change at Tokio as the magical wand with which to conjure up the bogie of Japanese menace to America. Their logic is that because Count Terauchi, the new Premier, is an army man the Cabinet organized by him must of necessity be militaristic and will assume a more aggressive attitude towards this country. By the California anti-land law controversy will be revived, the immigration question will be resuscitated, and the doors of China will be slammed against American enterprise.

As far as Japan's relations with America are concerned, the difference between the incoming ministry and the outgoing will be little more significant than the difference between Tweedledee and Tweedledum. True, the opponents of the retiring Okuma Cabinet severely criticized the latter's foreign policy, but in listening to their criticisms one cannot help wondering if they would have done any better than Okuma had they been given the reins of government.

In justice to Okuma Cabinet's critics, however, let it be said that its methods in dealing with China were far from satisfactory. The principles underlying those twenty-one demands presented to China last winter might have been put into execution in a manner far less lessusive and objectionable than was actually followed. What Japan should avoid in China is the pin-pricking so much in evidence in her dealings with Peking during the past few years.

This was, however, not the main reason for Okuma's resignation. As for relations with the United States, they constituted no factor whatever in the change. The truth is that Okuma has been wishing to resign for almost a year. He is 75 years old. Though still robust, he has to consider his age. He has been in power for two and one-half years, and the pressure of official duties has not entirely been without its effect upon his constitution. Soon after the Mikado's coronation was auspiciously celebrated last November, the aged Premier asked His Majesty to relieve him of his office, but the Emperor refused to do so in view of his great popularity. Okuma himself was inclined to think that he ought not to resign until he had completed an important task he had undertaken. That task was completed a few weeks ago in the conclusion of the new convention with Russia, which many hasty writers erroneously call an alliance treaty.

With the close of the campaign it will be necessary to hold on to the road to the Pacific entrance to Mercantile between China and Japan. The motorist who figured in miner accident was Lloyd Menach of No. 312 Mentor Avenue, and the motor car was driven by a motor car driver at East Colorado and El Monte Avenue, where the motorist had to be towed to a roadside.

It is predicted that with the increase in the number of automobiles in this country their use will increase with the abolition of all toll crossings.

It is announced that the German

But the high cost of living has not yet struck chewing gum.

The admirers of King Constantine also claim that "he has kept us out of war."

The advocates of birth control are at it again. What they need is control of speech.

Never during a Republican administration was the town so deep on the beer.

It is claimed back East that speech report is exaggerated.

A walk in the woods these autumn days will convince that Nature uses no imported dyes.

Over in London they are talking about kidnapping the Kaiser. But it is still in the realm of language.

Now that the election is over let us all get down to solid business. California can stand a lot of re-education along that line.

"No fruits, no flowers, no leaves, no birds, November." When The Hood wrote that line he certainly did not have California in mind.

The oyster is called a scavenger by some of the highbrow scientists. How will you have your scavenger fried or in the seductive milk stew?

It is predicted that with the increase in the number of automobiles in this country their use will bring about the abolition of all grade crossings.

It is announced that the Germans have "completely crushed" the Hungarian army. This is the third time that the work has been completed—in the dispatches.

With the close of the campaign it won't be necessary to hold on to a strap in the street car and try to read the political advertisements at the other end of the conveyance.

They have put up the stovepipe back East preparatory to the winter blast. Remember the humorous classic that Bailey of the Danbury News once wrote about putting up the stovepipe?

If the Bremen has really been sunk or captured the German fleet will have made a record beating the death accounts of Emperor Fraude Joseph or the Crown Prince's "mentally-wounded" report.

If the upward trend of prices continues it will soon be necessary for some of us to mortgage our auto to get food. In many well-regulated homes the eggs are now kept in a safe deposit box fixed in the kitchen wall.

There ought to be a reduction in the price we are to pay for the Dutch West Indies following the storm that damaged the islands to the extent of several million dollars. They should be placed on the remittances counter.

Uniform names for automobile parts have been recommended by the Society of Automobile Engineers. The idea is a good one and there ought to be a uniformity in the names we apply to some of the "chaffeur's."

What has become of the cry of the southern cotton growers when they wanted the national treasury to valorize their crops and begged that every man "buy a bale." Now the demand from across the sea has seen cotton kiting.

By command of Emperor William and the aged Francis Joseph the ancient kingdom of Poland has again been called into existence. Will that celebrated Pole, Ignace Paderewski, write something for the piano in honor of the event?

These E. Rexford, the man who wrote the words of the song "Silver Threads Among the Gold," is dead, but he was also a writer on horsecultural and kindred topics. The fact that he wrote a popular poem will not be held against his memory.

People who recall the planchette board of years ago will be interested in the statement that it has come back. It used to be quite a fad, spirit intelligence writing messages on the board when two persons operating the planchette placed the tips of their fingers lightly on the pointer. It used to furnish some "secret" messages."

3 WOULD HAUL
NOTHING BUT HAY.

THE HOME OF THE FLOWERS
Swift, down through vasty Chas.
like a star,
The Lover of the Flowers, from afar
Took winged way.
I saw his pinions gleam so won-
drous fair.

As how'ring lightly in the other rare
He viewed the spheres.
In loving tenderness, he watched a
slow
Revolving planet, in the trans-
slow

Of dying years.
Unknown and unnamed, this planet, it
contained
The souls of plants and trees, which
unprofaned.

Had flourished here
Upon the Earth, amid the sons of
men;
In giving their all, so dying, lived
again.

Each flower knew
The Lover of the Flowers, smil'd on
him,
And tho' his mem'ries of the sun
were dim.

A very few,
Each raised a flower face that knew
no guile,
To greet the welcome Sunshines of
that smile.

These perfumed breath
that was the incense of their grail-
tude,
Inhaled like a divine beatitude
Of conquered death.

increase in the number of automo-
biles in this country their use will bring
about the abolition of all grade
crossings.

It is announced that the Germans
have "completely crushed" the
Hungarian army. This is the third time
that the work has been completed—in the
dispatches.

With the close of the campaign it
won't be necessary to hold on to a
strap in the street car and try to
read the political advertisements at
the other end of the conveyance.

They have put up the stovepipe
back East preparatory to the winter
blast. Remember the humorous
classic that Bailey of the Danbury
News once wrote about putting up
the stovepipe?

If the Bremen has really been
sunk or captured the German fleet
will have made a record beating
the death accounts of Emperor Fraude
Joseph or the Crown Prince's "mentally-wounded" report.

If the upward trend of prices
continues it will soon be necessary
for some of us to mortgage our auto
to get food. In many well-regulated
homes the eggs are now kept in a
safe deposit box fixed in the kitchen
wall.

There ought to be a reduction in
the price we are to pay for the
Dutch West Indies following the
storm that damaged the islands to the
extent of several million dollars. They
should be placed on the remittances
counter.

Uniform names for automobile
parts have been recommended by
the Society of Automobile Engineers.
The idea is a good one and there
ought to be a uniformity in the
names we apply to some of the
"chaffeur's."

What has become of the cry of the
southern cotton growers when they
wanted the national treasury to
valorize their crops and begged
that every man "buy a bale." Now
the demand from across the sea has
seen cotton kiting.

By command of Emperor William
and the aged Francis Joseph the
ancient kingdom of Poland has again
been called into existence. Will
that celebrated Pole, Ignace Paderewski,
write something for the piano in
honor of the event?

These E. Rexford, the man who
wrote the words of the song "Silver
Threads Among the Gold," is dead,
but he was also a writer on hor-
secultural and kindred topics. The
fact that he wrote a popular poem
will not be held against his memory.

People who recall the planchette
board of years ago will be interested
in the statement that it has come
back. It used to be quite a fad,
spirit intelligence writing messages
on the board when two persons
operating the planchette placed the
tips of their fingers lightly on the
pointer. It used to furnish some
"secret" messages."

THE HOME OF THE FLOWERS
Swift, down through vasty Chas.
like a star,
The Lover of the Flowers, from afar
Took winged way.
I saw his pinions gleam so won-
drous fair.

As how'ring lightly in the other rare
He viewed the spheres.
In loving tenderness, he watched a
slow
Revolving planet, in the trans-
slow

Of dying years.
Unknown and unnamed, this planet, it
contained
The souls of plants and trees, which
unprofaned.

Had flourished here
Upon the Earth, amid the sons of
men;
In giving their all, so dying, lived
again.

Each flower knew
The Lover of the Flowers, smil'd on
him,
And tho' his mem'ries of the sun
were dim.

A very few,
Each raised a flower face that knew
no guile,
To greet the welcome Sunshines of
that smile.

These perfumed breath
that was the incense of their grail-
tude,
Inhaled like a divine beatitude
Of conquered death.

"Murder Puzzle"

(Continued from First Page)

"Murder Monsters are Getting
Through Overhauling.""Peugeot Veiled from
Public Gaze.""Oldfield is Still a
Possibility."BY WARDE FOWLER.
Resta entered his first American
races a year and a half ago
and won it. The Grand Prize automo-
bile at the Panama-Pacific
exposition grounds, San Francisco,
was a race course, dangerous
with rain that fell during
four hours of the race.
Resta battled along and fin-
ished ahead of the best
of the so-called double-
mystery.

REPEATS.

A week later Resta entered
second American affair
People who had won his first race out-
lined the course. His
Vanderbilt left

CITY HURRYING STREET PAVING.

Many Improvements will Soon be Finished.

More than Half a Million Dollars Expended.

Contracts Also Call for Storm Drain Sewers.

Indicative of the many municipal improvements already undertaken, Councilman Topham, chairman of the Public Works Committee, announced yesterday that street improvements and sewer construction to the value of more than \$600,000 are in progress, most of which are to be finished before the end of the year.

Contracts have been let for work on nearly 100 streets and in addition there is a good deal of private work under way, including eighteen paving jobs. The work is being done in all sections of the city. In addition proceedings have been started for a number of important improvements, including the Second-street tunnel, the widening of West First street, and storm-drain sewer systems in the West Jefferson and Santa Monica districts.

Each of fifteen contracts now under way represent amounts greater than \$10,000. The largest contract is \$79,235.70 for the Brooklyn-avenue improvement district. Two contracts which have been let for \$40,000 cover Dayton avenue and Los Feliz avenue.

The improvement of Dayton avenue from Pasadena avenue to Avenue 10 is nearly completed at a cost of \$43,175.91. Los Feliz avenue has been paved from Wilshire to Vermont avenue at a cost of \$46,914.

Another section of the city in which a big street improvement is under contract is on Boyle avenue from First street to Stephen Avenue, the cost of which will be \$29,137.50.

The Cromwell-avenue improvement district has been assessed \$22,457.67 for the improvement of Cromwell avenue from Wayne to Commonwealth avenue.

Estimated as an expenditure of \$21,021.64 for the work being done in the Cassatt-street improvement district from Hellman avenue to McKenzie avenue and a \$10,000 improvement being made on Crocker street between Ninth and Crocker streets. Other important contracts are the improvement of Forty-fifth street, \$12,425.85; Malabar street from Evergreen avenue, Fresno street, \$10,641; Pico street from Almon to 10th to 12th, \$10,000; Queen Anne Place, \$15,810.92; Eleventh street and Eighteenth street, San Pedro, \$20,926; Gaffey street, \$32,228; Pacific avenue and Two-hundred-fifth improvement district, \$10,000; Franklin Street to Hamiton avenue, \$27,967.22; Wommoreland avenue from Fountain to Santa Monica and from Melrose to Oakwood, \$18,719.

Promising.

BIG ORE STRIKE IN UNITED NORTHERN.

SIX FEET OF THE MAIN VENI SHOW HIGH VALUES.

From Past History of Camp Higher Values are Anticipated When Hanging Wall is Reached. High-grade Wolframite Tungsten Ores at Mojave.

One of the most interesting features of the Oatman (Ariz.) district is the ore strike made in United Northern, which property is located approximately 3000 feet from the United Eastern Mining Company's main working shaft. The United Northern has in the neighborhood of \$8,000,000 to \$10,000,000 in gold blocked out. The United Northern claims lie between the United Eastern and Gold Roads, the latter company having paid over \$8,000,000 in dividends.

Development work on the United Northern has progressed without a day's delay since the shaft was started. Under the supervision of Engineers Goldsworthy a double compartment shaft has been sunk to a depth of 1000 feet, at which point the vein was 4000 feet south, approximately 100 feet, and where the main vein was reached the first six feet gave an average value of \$3.65 to the ton. Since that time assays, according to the officers of the company, have been running from \$12 to \$24 a ton. This vein has so far been penetrated but forty-eight feet, indicating that the hanging wall has not as yet been reached. When it is, and from past history of the camp, as shown in the Tom Red, Big Jim, Gold Roads and United Eastern, high values it is expected will be encountered.

Ore is to be run in both directions on the vein and the shaft sunk to 600 feet. Additional machinery for such development work is being ordered so that the work of blocking out the ore may be done rapidly. The officers of the company state that the treasury is amply financed for such work.

The stock of the United Northern Mining Company is listed on the Los Angeles Stock Exchange and there has been considerable activity in the issue of late. On Monday's market sales were made at 30 cents per share.

Although gold and copper mining still continues attracting the main attention of investors at present, tungsten mining is not being neglected by any means. One of the properties having the greatest promise in the line is the new Mojave Annex Tungsten Company. In an interview, Joseph B. Evans, president of the company, made the following remarks:

"We have one of the largest bodies of tungsten ore to be found in the West. Practically all of the ore that we have, will average around \$60 per ton and the great deal of it will go to Wright's Oil Company, located in the Clark mining district near the Nevada State line. A twenty-ton mill will be erected shortly and then we will take out the ore, which is of the wolframite variety or tungsten."

Annual TO HOLD BAZAAR.

Women of the First Congregational Church will display in Pretty Booths Variety of Articles. To Open in Afternoon Next Thursday Week.

At their annual bazaar to be held Thursday, November 16, the women of the First Congregational Church will depart from their customary plan of an all-day session and will not open the bazaar until 1 o'clock p.m., when a variety of beautiful and useful articles made and contributed by the women of the church will be displayed in tasteful booths. Miss Bessie C. Boshey is chairman of the bazaar committee, and is assisted by Mrs. Seeley W. Mudd, Mrs. J. F. Fassett, Mrs. W. Miller and Mrs. M. H. Hicks.

Other women who will be in charge of the various booths where candy, cookies, flowers, pictures, Christmas cards, dolls, aprons, articles suitable for gifts to men, and fancywork, will be displayed, include Miss C. Richards, E. M. Duran, J. F. Newberry, Rose A. Harris, A. A. Burnand, S. W. Hastings, I. M. Brewer, F. B. Westcott, L. Madine, C. A. Miller, T. L. O'Brien, H. C. T. Woods, E. C. Chapin, F. Shurtliff, F. Betts, V. V. LeRoy, Harriet A. Burd, J. T. Miller, Berthold Baruch, A. F. Far, Harry Church, E. M. Poole, Misses Lucia, Rathbun, Katherine Bacon, Frances Bennett and a corps of young women from the girls of the church.

A children's dinner will be served at 6 o'clock under the supervision of Mrs. Florence McDowell, and in the evening there will be a novel and interesting entertainment, "A Day in Japan," given by the members of the Japanese Congregational Church and mission.

Increases
SHOWS GOOD GROWTH.

Temple B'nai B'rith Gained in Members and Revenues During Past Year. According to President's Report Issued Saturday.

The annual report of the Temple B'nai B'rith was issued Saturday by Dr. D. W. Edelman, president of the B'nai B'rith congregation. The report touches upon the work accomplished by the Sunday-school and the various activities of the organization.

"We have received \$15,281," reads the report, "as seat rentals and dues this year. This sum far exceeds any collection in the past. There are 117 members of the organization this year, an increase of thirty members over last year."

Sore Eyes, Granulated Eyes
Infected by exposure to Sun, Dust and Wind. Treated by Maurice Eye Remedy. No smarting. Not Expensive. As low as 50c per bottle. For Book of the Eye Free, Mail Maurice Eye Remedy Co., Chicago.

SUITED!

This applies to those who are pleased with the election returns this morning, and to those who are wearing an A. Greene & Son ladies' made to measure suit.

Read the announcement below. Right in the face of the increasing cost of all materials, it ought to be worth something to you.

Order now in preparation for the holiday season.

REDUCED

PRICES

So many have shown appreciation (by ordering) of the reduced prices advertised by us last month, that we have decided to continue them for a limited period.

Ore is to be run in both directions on the vein and the shaft sunk to 600 feet. Additional machinery for such development work is being ordered so that the work of blocking out the ore may be done rapidly. The officers of the company state that the treasury is amply financed for such work.

The stock of the United Northern Mining Company is listed on the Los Angeles Stock Exchange and there has been considerable activity in the issue of late. On Monday's market sales were made at 30 cents per share.

Although gold and copper mining still continues attracting the main attention of investors at present, tungsten mining is not being neglected by any means. One of the properties having the greatest promise in the line is the new Mojave Annex Tungsten Company. In an interview, Joseph B. Evans, president of the company, made the following remarks:

"We have one of the largest bodies of tungsten ore to be found in the West. Practically all of the ore that we have, will average around \$60 per ton and the great deal of it will go to Wright's Oil Company, located in the Clark mining district near the Nevada State line. Ruling. IS ONE-SIDED.

Federal Judge Sustains Demurser in Suit Growing Out of Sugar Contract — Holds Instrument Binds One Party, but Doesn't Bind Other.

United States District Judge Bleasdale Monday sustained a demurser to the bill filed by T. W. Jenkins & Co., an Oregon concern, against the Anaheim Sugar Company, holding that the contract which was the basis of the action lacked mutuality.

The action was brought to recover \$13,220 alleged to be due from defendant for breach of contract on the sale of sugar. In June, 1914, the Oregon firm entered into a contract with the Anaheim Sugar Company, by which the latter was to

furnish the "August requirements" of the plaintiffs at the cost of \$4.20 per bag. It was charged that under that agreement an order was placed for 4200 bags, but only 4000 bags, or 100 bags in excess of the contract figure, were delivered.

The court held that the contract not only was lacking in mutuality, but that it was one-sided in its entire nature, and that defendant could be compelled to furnish the sugar covered by the contract, but the plaintiff could in no wise be compelled to accept the defendant's offer and accept any sugar thereunder.

—Free examination of the hair and scalp by Prof. Austin 10 to 12 a.m. and 2 to 4 p.m. daily. (Private Office—2nd Floor—Hamburger's)

**An Effective Laxative
For Growing Children**

Dr. Caldwell's Syrup Pepin Highly Recommended as a Family Remedy.

In children the slightest irregularity of the bowels has a tendency to disturb the entire digestive system and unless promptly treated invites serious illness. The experienced mother knows that by training her children to regularity in this respect, and when occasion arises administering a mild laxative she will have little need for the doctor's services.

Dr. Caldwell's Syrup Pepin is obtained at any drug store for fifty cents, and should have a place in every home. It will save many times its cost in lessened doctor bills and maintain the health of the entire family. Dr. Caldwell's Syrup Pepin is a combination of simple laxative herbs with pepin that acts easily and naturally, without griping or other pain or discomfort. It is pleasant to the taste so that children like it, too. St. Monticello, Illinois.
